To Whom It May Concern:

As a local business owner, I have conducted business with many companies, both on a business and personal level. I was very impressed and completely satisfied with the outstanding landscape and beautiful Medjool palms that Palm Garden Depot provided. The four, twenty five foot Medjool palms were installed without complications and work was completed in a timely manner. I was also impressed at the quality of the palms and how Palm Garden Depot's crew worked as a team to leave the area pristine. The palms were installed on April 8, 2008 and to date the landscape and palms are flourishing and look stunning. I would highly recommend Palm Garden Depot for any landscape services. Feel free to contact me if you have any further questions.

Thank you,

James Price
